Updates

The screenshot shows the Microsoft Lists interface for a list named "Conference Event attendees". The interface includes a top navigation bar with "Lists", a search bar, and user profile icons. Below the navigation bar, there are action buttons: "Add new item", "Edit in grid view", "Undo", "Share", "Export to CSV", and "Manage Forms". The list itself is displayed in a table format with columns for "Attendee", "Email", "Date of attendance", "Hotel", and "Room No.". The table contains three rows of data. A purple overlay box is positioned in the center of the screen, featuring a document icon and the text "Create and share forms". Below this, it states "Now you can share a form with people to get information for your lists. Responses display as new items." and includes a "Try it" button.
